

10-Minute Spanish Lessons for K-8

- 10-minute video lessons, many with handouts.
- 100+ lessons added each year. Half the lessons should be repeated at least once.
- Highly interactive Fluency Builder software can be used along with the videos.
- Cultural content for all grades.
- View videos in Windows or on Apple computers. Fluency Builder is for Windows only.
- The Fluency Builder software and the video lessons are unequal but complementary parts. They overlap to a significant extent, but each has much that the other does not.

Pronunciation Guidance

- Target vocabulary is introduced, explained and practiced.
- Properly timed pronunciation guidance.
- Includes tongue twisters and songs.

Rules of Language

- Palatable grammar for young language learners.
- The rules are shown to be useful.

Comprehension Activities

- A variety of interactive components lets students demonstrate comprehension.
- Kids learn to interpret into English, later from English to Spanish.

Grades K-3 Cultural Content

- Emphasis is on the lighter, interesting aspects of everyday life.

Grades 4 and up “Cultural Insights”

- Do people in Mexico really eat “Mexican” food?
- Why did the Hondurans joke about grits?
- Why do so many people come to the USA?
- Emphasis is on aspects that give kids an early start on being world smart. Lessons encourage kids to learn other languages and cultures.

Fluency Builder – Software for Windows

- Interaction is built on an elaborate educational psychology.
- Work the activities in any order you want.
- Reinforces many elements of the video lessons.
